

2026 HKIQEP General Council Election - Candidate Statement
BHANJA CHEUNG Kit Yi Suzanne (PM0279)

I am an environmental professional with over 30 years of experience across the corporate, consulting, NGO and public sectors. Currently serving as Principal Manager, Group Environment at CLP Holdings, I lead strategic initiatives in environmental management, circular economy, nature and biodiversity, and environmental disclosure. I have held senior leadership positions with Swire Coca-Cola HK, Friends of the Earth (HK), Business Environment Council and Hong Kong Productivity Council, gaining extensive experience in governance, sustainability strategy, stakeholder engagement, advocacy and communications.

Being a long-standing contributor to HKIQEP, I serve on the Membership Committee and Disciplinary Panel, and actively supporting the Accreditation Panel and Professional Assessment (Part II) Panel. I have also contributed to member engagement activities, including professional events and technical exchanges. These experiences have deepened my appreciation of HKIQEP's vital role in upholding professional standards and advancing environmental excellence.

If elected to the General Council, I will focus on enhancing the recognition of HKIQEP and its members, strengthening professional development in emerging areas such as nature and circular economy, and nurturing the next generation through mentoring and cross-sector collaboration. I am committed to helping HKIQEP remain a respected, forward-looking and influential voice for environmental sustainability in Hong Kong and beyond.
