

HKIQEP Council Election - Candidate Promotion Materials

CHIU Cho Keung, Franki (PM0222)

I am currently a Director of Arup, leading the environmental team in HK. I am honoured to stand for election as a Council Member.

Over the past three decades, I have had the privilege of witnessing the evolution of EIAO. This has provided me with an excellent platform to develop a career that I am passionate about, covering EIA, detailed design and implementation. Through this journey, I have gained invaluable experience and insights, and I believe I have a responsibility to pass on this knowledge to our young generation.

In recent years, I have served as an assessor for Professional Membership, Certified Noise / Air Modelling Professional, and a visiting member for accreditation schemes. These roles have allowed me to support professional development of our young generation. I believe I can contribute further by taking a more active role in HKIQEP.

The future of HKIQEP is in the hands of our young generation. If elected, I would strengthen knowledge and experience sharing, support professional development and accreditation, and encourage greater participation from young professionals in HKIQEP and beyond. I would also mobilise more support from my firm and the wider industry to grow HKIQEP.
