Vision & Motivation

I am running for the HKIQEP General Council to elevate environmental professionals and position HKIQEP as GBA's Centre of Excellence. Environmental priorities are now core business strategies; I am committed to securing HKIQEP qualifications as the local and regional gold standard.

Leadership & Experience

As CEO of BEC, I bring strong executive management and deep insight about private-sector demand for green transition and sustainability talent. My board roles as Director of HKGBC and former Chair of EMAHK afford me robust governance experience for HKIQEP.

Public Service & Strategic Impact

As current member of ACE, ACNM and HC, I will actively advocate for HKIQEP members to lead environmental assessments and sustainable practices across Hong Kong's major developments.

Key Priorities for HKIQEP

- *Regional Recognition:* Drive GBA harmonisation and mutual recognition for HKIQEP members.
- *Talent Pipeline:* Connect university programmes with corporate leaders.
- *Industry Network:* Strengthen HKIQEP's connection with the private sector.
- *Wider collaboration:* Broaden partnership with other professional institutions.
