

U KAM WA CLARA

HKIQEP Membership No.: FF0031

With over 30 years of experience at the Environmental Protection Department and a proven leadership record as former and current Chairman of the Hong Kong Institute of Environmental Impact Assessment, I bring a good combination of governmental insight and institutional leadership to HKIQEP's General Council.

As a key member of HKIQEP's Accreditation Panel / Visiting Team, I helped assess environmental degree programmes to uphold rigorous standards. On the Qualification Panel, I contributed to the Professional Assessment process and authored the official Study Guide supporting candidates' qualification journey. I am committed to strengthening ties between HKIQEP and the Government, leveraging my EPD network and HKIEIA leadership experience to foster collaboration and sound governance. A key priority is to nurture HKIQEP Spokespersons - training and empowering representatives to engage media and government consultations, raising public visibility and professional standing. I would be honoured to serve with integrity, dedication, and vision.
